PNEUMONIA

FOLLOWS LA GRIPPE

And pneumonia is often a quick agent of death. The advance of pneumonia is insidious, stealthy; it is upon you before you know it, usually just about the time you think you are cured of the grippe or a bad cold.

Foley's Honey and Tar prevents pneumonia.

A slight draught, a trifling irregularity in the warming of your home, a little overexertion-such seemingly simple things induce pneumonia in the system weakened by

Foley's Honey and Tar eradicates the weak spots.

Pneumonia at any time is greatly to be feared. Pneumonia that follows la grippe is almost always fatal.

Pneumonia is now a prevalent disease and many who apparently were cured of la grippe are dying from its insidious follower, pneumonia.

Pneumonia may follow la grippe but pneumonia cannot follow Foley's Honey and Tar.

Here is something we know from fifteen years experience: FOLEY'S HONEY AND TAR will cure la grippe in any stage so effectually that neither pneumonia nor any other disease of throat and lungs can find a loophole anywhere in the system. A few doses will ward off la grippe if taken in time. FOLEY'S HONEY AND TAR is unconditionally guaranteed to do these things. Your money will be returned if it does not.

NOTE-Your doctor will tell you this: Pneumonia may follow any sort of cold, especially just now. This is a pneumonia season, when all the conditions are right for its contraction. Pneumonia follows whooping cough, measles and other similar diseases in children and is almost necessarily fatal in such cases. "Measle-pneumonia" is the doctor's dread.

NOTE THIS FACT. The ordinary muriate of ammonia cough mixtures given by doctors in these cases are ineffectual and many little lives are lost by the prejudice of physicians in favor of an antiquated remedy. Many doctors have been divested of prejudice by seeing the wonderful results of FOLEY'S YONEY AND TAR in saving children's lives. It cures the cause and prewents the result. It is ouaranteed.

Dr. J. C. Bishop of Agnew, Mich., writes: "I have used Foley's Honey and Tar in three very severe cases of pneumonia the past month, with splendid

The robberies were committed on Thursday night, March 9, between 8 p. m. and midnight, and the culprits were arrested before midnight on Priday, the day following. They were held for the grand jury in the Police Court Monday last, and an indictment returned against them by that body on Wednesday. Their trial began Thuraday afternoon and was concluded yesterday. The jury consumed-but five minutes in reaching the agreement, and returned a verdict of

The climax to the proceedings was reached Wednesday last, when Eugene Peters was called to the witness stand to testify in his own behalf. Those who expected that his testimony would be erratic, incoherent, and wandering were surprised when the defendant proved more surprised when the defendant proved more than a match for the astute attorney who conducted the cross examination. He had not gone far with his direct testimony under the lead of Mr. Worthington when the clouds which had overshadowed his mind since his arrival in Washington from New Orleans seemed to drift rapidly away.

The Yale-Harvard Rowing Events. New Haven, March 17 .- "Yale and Harvard will positively row their three scheduled races in New London this year," said President Ord Preston, of the Yale navy, today. This decision of the college crew managers has been made without hearing from the New London Board of Trade relative to a guarantee toward defraying the crew's expenses. Yale and Harvard graduates living near New London have taken up the matter and say that as substantial a sum as can be raised will be guaranteed. The college managers have no wish to be mercenary in the matter and therefore will accept no bids from other cities for the race.

SAVED BY KLEPTOMANIA. Leniency for Mrs. Annie M. Norris,

Confessed Shoplifter. Mrs. Annie M. Norris, who was recently released on her personal bond by Justice Bradley, after pleading guilty to six indictments of grand larceny in Criminal dictments of grand larceny in Criminal Court No. 2, was yesterfay arraigned in the Police Court to answer eighteen informations against her, all charging petit larceny. The prisoner entered a plea of guilty in each case, and her counsel, E. B. Hay, asked that lentency be shown and that the court suspend sentence. Mr. Hay informed Judge Scott that Justice Bradley had taken similar action in the higher court when the woman was arraigned for grand larceny, because the pawnbrokers and jewelers who had suffered through her alleged kleptomania had requested it. The attorney suggested that it was disease rather than criminal instinct that caused the woman to commit these thefts. He made reference to the former good

Caused the woman to commit these thefus.
He made reference to the former good standing of the prisoner and told a pathetic story of her home life. Restitution, he said, had been made to all parties concerned, and there was no desire to prosecute. The suggestion of Attorney Hay was agreeable to Assistant District Attorney Mullowny, who stated that any disposition of the case that the court saw fit to make would be satisfactory to the prosecution. Judge Scott, in speaking of the case, said that he was cognizant of the action taken by the higher court, but of mind to manage his own affairs, lands and tenements, and the jury further finds that there was sufficient ground to justify the partners and relatives in instituting not care to have the woman prosecuted. The papers, he said, showed further that ample restitution had been made. Judge Scott informed Mr. Hay that it was his desire to conform to the attitude of the ligher court as far as was possible, he advised that the counsel for the defence file similar papers in the present cases. Mr. Hay assured the court that this advice would be followed.

Judge Scott will announce his decision in the case this morning.
